SKILLS

- Structural Geology
- Stratigraphy Sedimentology
- Seismic Interpretation
- Petroleum Geology
- Mineralogy

LANGUAGES

- Spanish (Native)
- English (Fluent)
- Romanian (Fluent)
- Italian (Intermediate)

PROFILE

"Enthusiastic Entry-Level Geologist with a Veterinary and Agro-Industrial Engineering background". Transitioning from a decade-long career in veterinary medicine and agro-industrial engineering in Colombia, I'm now pursuing my passion for geology. Seeking opportunities to apply my diverse skills and collaborative nature to explore and manage subsurface resources effectively. Eager to blend veterinary and agro-industrial engineering experience with geological expertise for a positive impact. Let's connect to discuss potential collaborations in understanding our planet's subsurface.

EDUCATION

- Veterinary Medicine** 2003 - 2009
Universidad Antonio Nariño Colombia
- Geology** 2014 - 2017
Department of Geology and Geophysics University of Bucharest.
 - Final Work: Sedimentological study of Miocene-Pliocene deposits of Eastern Carpathians, Curbura zone. Depositional systems and tectonic evolution.
- M.Sc. - Master of Science** 2017 - 2020
Department of Geology and Geophysics University of Bucharest.
 - Thesis: Structural and stratigraphic influence on the distribution of hydrocarbon in reservoir rocks of an area in the central North Sea: Volve field, Norway

WORK EXPERIENCE

Currently looking for a work opportunity that allow me to start in the development of my career as geoscientist.

- 2011 - 2012 Veterinary Volunteer Colombia
- 2014 - 2015 Veterinary Volunteer Romania
